St. Paul, Minn.

Sup. of U. S. Mint

#766

Gentlemen

The Returns for my last Shipment of Gold was the biggest Surprize I ever had it is no doubt but what there is a mistake after sending you the best Lot of Gold I ever send ~~to~~ before. getting about \$5000 less than expected this last Shipment contained only Gold ranging from 14 to 18 Carats nothing lower it was worth the very least 60¢ per Dwt. it was 244 Dwt I tested every Piece of Gold very close with the U. S. needle before sending and my Evening has always been O.K. with the Exception of the last lot can not understand where a Drop off of 80 Dwt. should come from on such good Quality of Gold. it has never been more off an lower Carat of Gold than a few Dwts with enclosed Statements will show to you kindly look up the mistake otherwise it will loose about \$40000 Please take notice on Statement that this has been figured all a night before. over

St. Paul Minn.

Sept. 18/89

Alb. Cohen.

Complains of in-
sufficient return
on each deposit.

Recd
Sept. 17, 1894

But has been scratched out and the figure
8 placed on it. Please look up former
statements and you want first a drop of 4 cts

Give same your attention

Respectfully yours

Alb. Cohen

Sup. Of U.S. Mint

Gentlemen

The returns for my last shipment of gold was the biggest surprises I ever had it is no doubt but what there is a mistake after sending you the best lot of gold I ever send before. Getting about \$50.00 less than expected. This last shipment contained only gold ranging from 14 to 18 carat nothing lower it was worth the very least 60 cents per Dwt. It was 244 Dwt. I tested every piece of gold very close with the U.S. needle before sending and my averaging loss always been O.K. with the exception of the last lot. Can not understand where a drop off of 80 Dwt. should come from on such good quality of gold. It has never been more of an lower carat of gold then a few Dwts. With enclosed statements will show to you kindly look up the mistake otherwise I will lose about \$40 to \$50. Please take notice on statement that this has been figured all right before.

But has been scratched out and the figure 8 placed on it. Please look up former statements and you want final a drop of 4 oz. Give same your attention.

Respectfully yours,
Abe. Cohen
